Corynorhinus rafinesquii

DRAFT Species Distribution

Updated: 1 September 2008

Species occurrence records from heritage databases have been mapped within three categories as described below. We would like to discuss changes to this structure and the accuracy of these distributions during our workshop in September and provide this draft in advance of the workshop so you can be better prepared for the discussions.

- 1) Pre-1995: distribution records obtained for the county prior to 1995
- 2) Post-1995: distribution data obtained for the county in 1995 and after
- 3) Counties that have distribution records for both time periods

Pre-1995 County Records

Brooks
Charlton
Clinch
Decatur
Fannin
Grady
Mcintosh
Thomas
Towns
Union

Post 1995 County Records

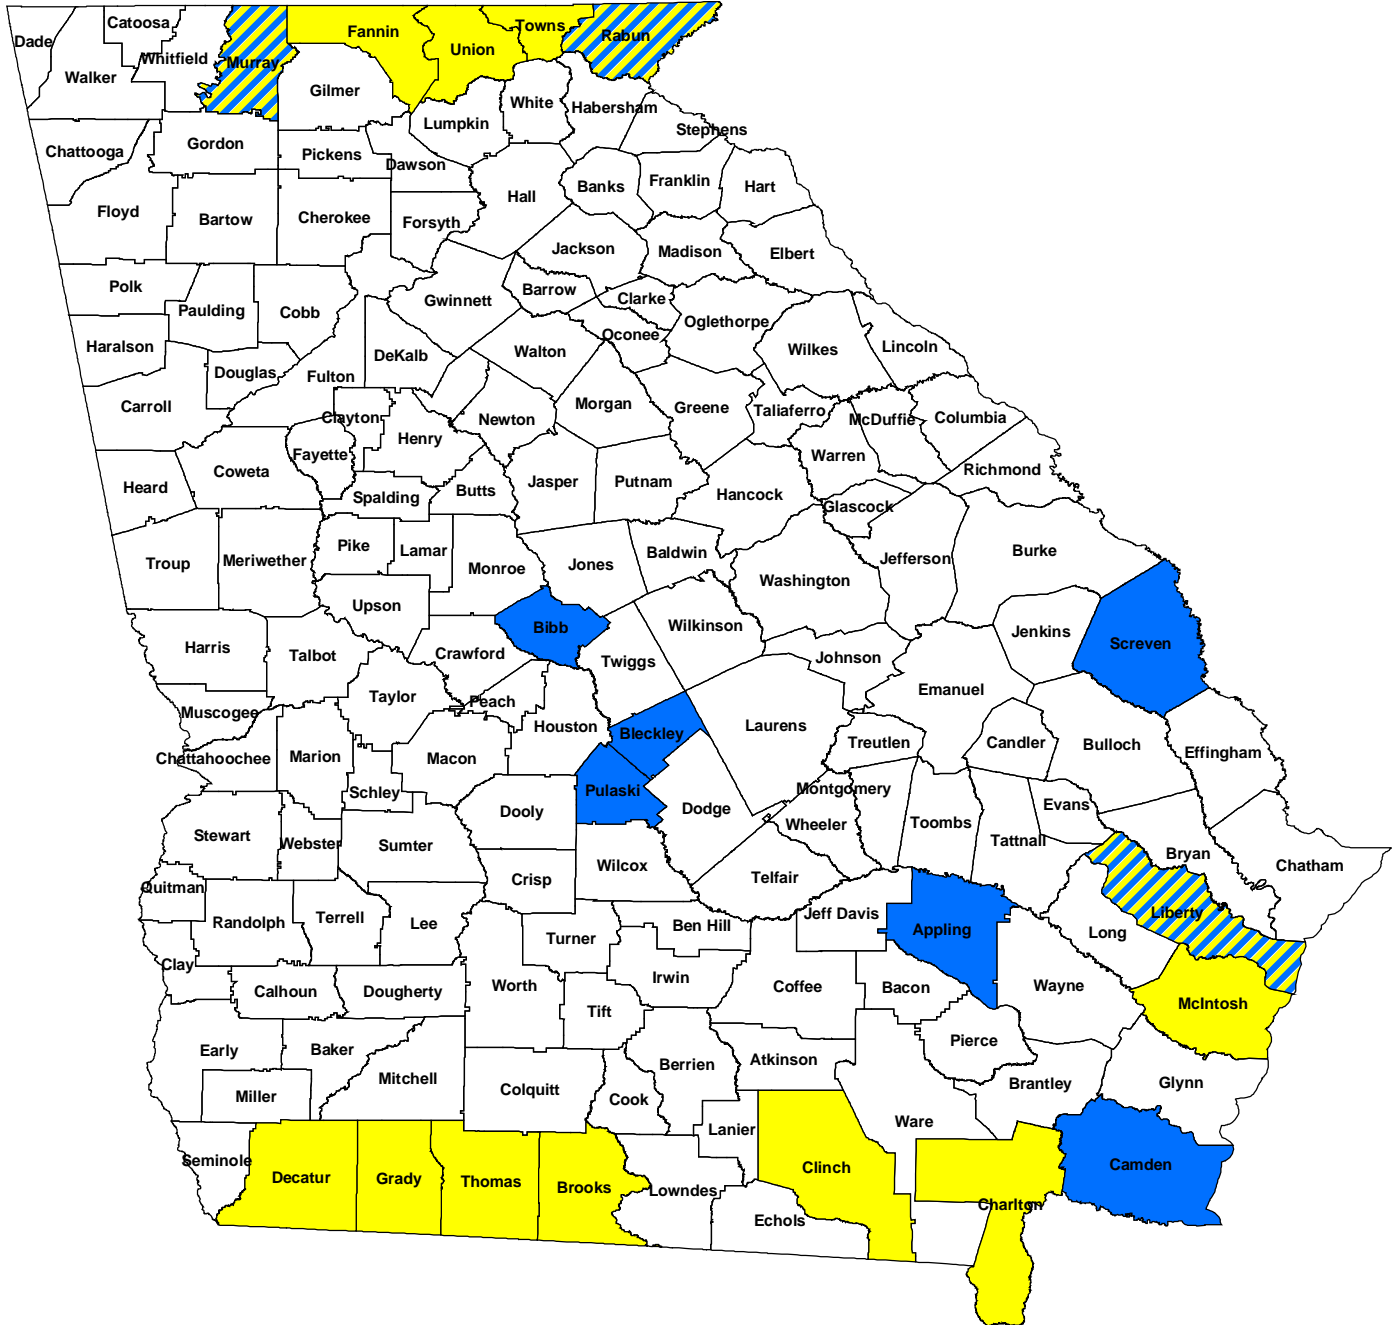

Appling
Bibb
Bleckley
Camden
Pulaski
Screven

Counties with pre and post 1995 records

Liberty
Murray
Rabun

Georgia

Corynorhinus rafinesquii
