

Texas

Corynorhinus rafinesquii

DRAFT Species Distribution

Updated: 1 September 2008

Species occurrence records from heritage databases have been mapped within three categories as described below. We would like to discuss changes to this structure and the accuracy of these distributions during our workshop in September and provide this draft in advance of the workshop so you can be better prepared for the discussions.

- 1) Pre-1995: distribution records obtained for the county prior to 1995
- 2) Post-1995: distribution data obtained for the county in 1995 and after
- 3) Counties that have distribution records for both time periods

Pre-1995 County Records

Harrison
Liberty
Marion
Montgomery
Nacogdoches
Newton
Polk
Sabine
San Augustine
Upshur
Walker

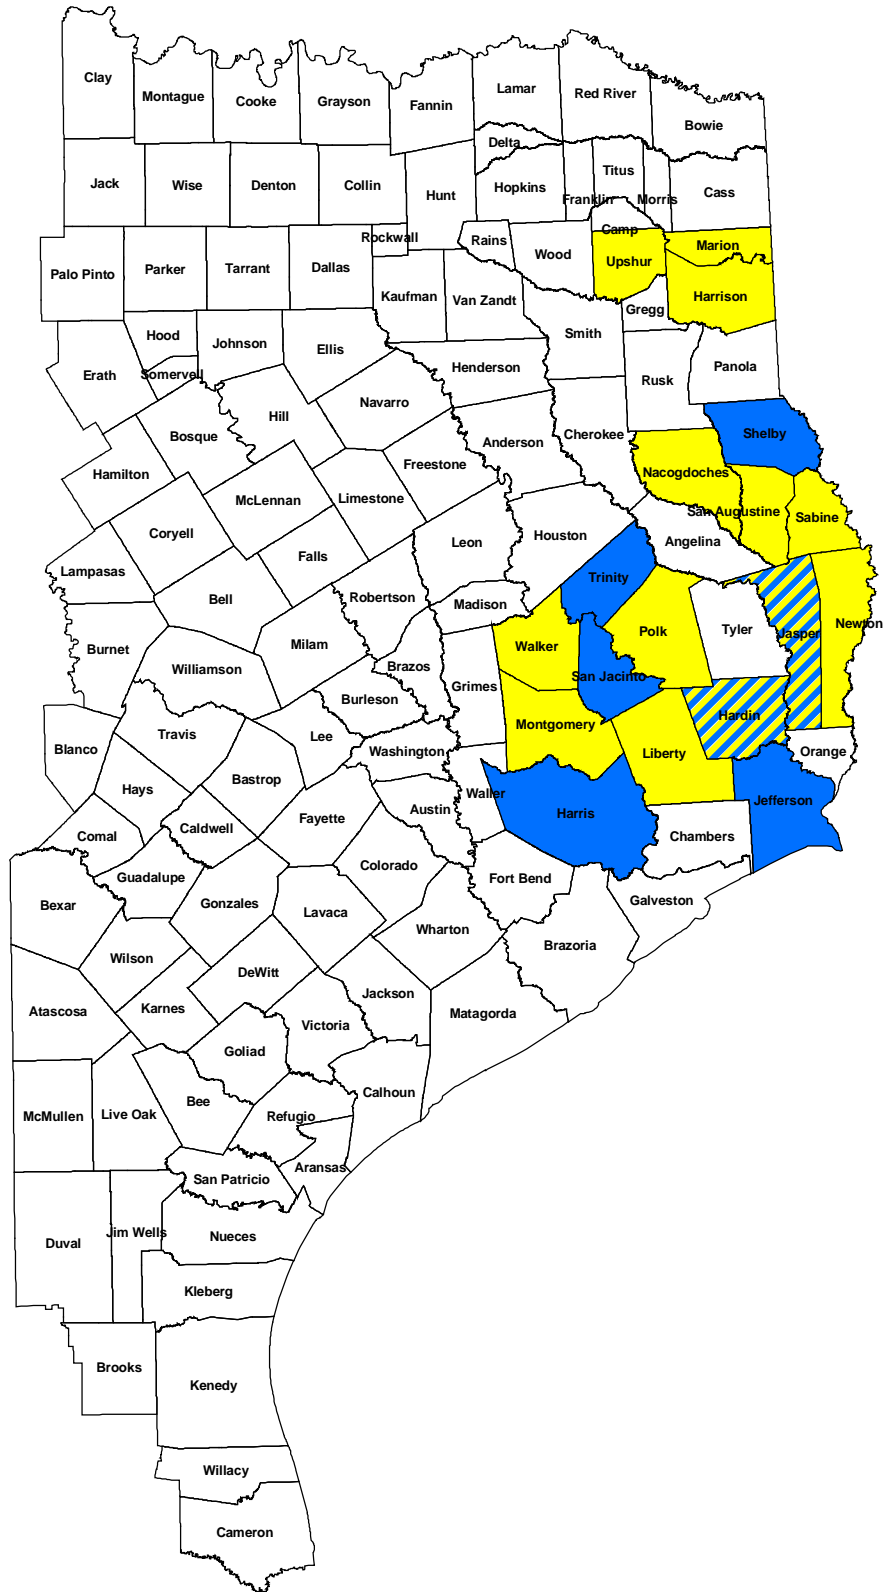

Post 1995 County Records

Harris
Jefferson
San Jacinto
Shelby
Trinity

Counties with pre and post 1995 records

Hardin
Jasper

East Texas *Corynorhinus rafinesquii*

DRAFT : *Corynorhinus rafinesquii* distribution
 NOT FOR DISTRIBUTION
 updated: 1 September 2008
 Bat Conservation International and Southeastern Bat Diversity Network

- County records prior to 1995
- County records 1995 or later
- County records both pre- and post-1995
